

END OF TRIAL OF  
N. Y. SOCIALISTS  
NOT YET IN SIGHT

History of Party Since  
1864 Read Into the  
Court Records

WILL SPEED  
UP PROCEEDINGS

ALBANY, N. Y., Jan. 30.—The second week of the trial of the five suspended Socialist assemblymen charged with disloyalty entered tonight council for the assembly judiciary committee still unable to state when they would be able to complete presentation of their case.

This morning was consumed with a general exposition of Socialism and its history since 1864 but this afternoon the prosecution read into the record volumes of documentary evidence bearing on the anti-war program of the Socialist party and the attitude of the Socialist delegation in the assembly war legislation.

Committee counsel also went into the Socialist doctrine that political action should be backed with industrial action and obtained from Algernon Lee of New York, treasurer of the Socialist state committee an admission that under certain conditions Socialists considered a general strike a justifiable measure.

The judicial committee today displayed noticeable efforts to speed up proceedings.

Seeding up process followed a report that a fifth effort might be made in the lower house next Monday night to reseat the ousted members and oust the judicial committee. The report had it

that Lieutenant Colonel Theodore Roosevelt would head the movement, but the colonel would neither confirm or deny the report.

After Seymour Stedman had led Lee into the history of Socialism in all the countries of Europe, Martin Conboy, director of the draft in New York district

during the war subjected him to a long re-direct examination on the subject of general strikes. Mr. Conboy asked if American Socialists planned, according to the Chicago manifesto to utilize the general strike to back up political action.

Mr. Lee replied, "that if the

Mr. Conboy then asked the witnesses:

"Let's assume that these five gentlemen whose seats are questioned should present a political program here in the shape of pro-

posed legislation and they were reinforced by the combination of industrial action including with-  
in its weapons the general strike,  
that would be possible for them,  
would it not, in the event the  
legislature refused to adopt the  
movement to cripple the indus-  
tries of the state and to starve  
the people thereof."

"I think you are assuming an impossible condition", replied Mr. Lee.

In attempting to show the Socialist attitude toward war, the prosecution introduced many

phlets, among them articles  
opposing the draft in which were  
published by the American Soc-  
ialist and used as evidence in the  
cases of Victor L. Berger and  
others convicted of having vio-

## SUFFERING FROM SLEEPING SICKNESS

Quincy, Ill., Jan. 30.—An investigation by the state board of health is to be made into the mysterious illness of Mrs. Sadie Hewitt of this city, whom local

with authorities believe is suffering from "sleeping sickness", of which but 53 have been reported in Illinois since its discovery in Africa many years ago. Mrs. De-tt has been in a trance for two weeks, sleeping continually. Her

Illinois suffrage leaders are rejoicing that Chicago had been chosen for the final and most

brilliant of the long series of annual conventions held by the National American Woman Suffrage Association. This convention will be held in Chicago, February 12-18, and may be the final and victory convention, as there need be no more conventions of the association if the federal suffrage amendment is ratified in 1920.

The National Safety Council announces an affiliation with the University of Cincinnati for the purpose of carrying out a program that is unique—almost radical—both to the fields of education and accident prevention and that opens a new and promising avenue for the service of the council. Briefly, this program includes the establishment of an industrial medicine division at the University of Cincinnati where medical students and graduate physicians will be given special training not only in industrial medicine, but in industrial relations, including sanitation and all the fundamentals of safety work as well. This school is already under way.

### FORTY-SEVEN CENTS A DAY

Among the relics treasured by a Chicagoan is a record of appropriations made by the general assembly of Illinois which convened in December 1836. The record shows clearly the advance in the cost of living since that date. A few of the appropriations follow: "That the sum of \$2,000 shall be appropriated for the governor for the years 1837 and 1838." "To Jefferson Weatherford, \$7 for cash advance to assistants in furnishing wood for the session just closed." "To Henry Smith the sum of \$69.68 for articles furnished for the funeral of Hon. Resolved Graham." "To Joseph C. Bruner the sum of \$70.87 in full for his salary as warden of the penitentiary." "That \$100 be appropriated to Fulton County for the erection of bridges, building of roads, etc." "That an act be passed incorporating the city of Chicago to include six wards, and governed by a mayor and 12 aldermen, and that the act include adequate provision to prevent the running at large of dogs, swine, sheep, the rolling of hoops, the playing of ball, the flying of kites, or any other amusement that would serve to distract the citizens." "That the maximum salary for ordinary labor for towns shall be 47 cents per day.

Possibly they had more to eat at that time, but they had not the many comforts and luxuries enjoyed by the present generation.

**The Panic.**  
The wise men now predict a panic before this year grows old; there'll be catastrophes titanic by autumn, we are told. The present boom has no sound basis, and it is bound to burst. Then there'll be coming, fast and faster, all kinds of perils dire; the doc will pawn his mustard plaster, the hard will soak his lyre. Then giddy boys who now are burning the costly brands of gas will be for handout vainly yearning—they'll have to feel on gross. So now, while coin seems rather plenty, let's make the strongest thrive, and every month salt down a twenty, or maybe twenty-five. Let's do some wise and cautious planning against the time of stress, and when we see the panic coming we will survive. And if the panic doesn't reach us we'll be ahead our store; and saving some will surely teach us the way to save some more.

**MEDICAL CLUB TO MEET TONIGHT**

## UNITED COMMERCIAL TRAVELERS SMOKER

Jacksonville Council Will Entertain Traveling Men Tonight—Lots of Eats and Good Program to Follow.

Jacksonville Council No. 182, United Commercial Travelers will give a big smoker in Odd Fellows Temple, East State street, this evening.

The local council has had plans under way for the event for several weeks and a big time is assured all traveling men who attend.

It is the desire of the local council to have all traveling men attend whether they are members of the order or not. A cordial invitation is extended to all local and visiting travelers who are in the city this evening to be guests of the local council.

There will be lots of eats and this will be followed by a program. The program will consist of musical numbers and short talks by good speakers. The affair is absolutely free and the local council wants all to join with them in making it a success.

## Story's Exchange,

Loans and Insurance, Real Estate

Time was in England when men, with no land, had iron collars welded around their necks, and were slaves to their masters—the land owners.

Looks as though we are headed that way in the old U. S. A. Our land has doubled in value nine times in 90 years—an average of once in ten years. Who can say it will not double in the next ten years? You don't think so? Neither did you think so ten years ago, but it has. I know men who have hoarded their money 20 years waiting for land to get cheaper, and have seen values double twice, and still advancing. The reason is plain: 120 million people where there were once 5 millions, and no more land now than then. Fifty men want the same farm—only one can have it.

Every farmer should "salt down" a piece of land somewhere. Use your money and your credit—your neighbor has money to lend, and wants to lend as bad as you want to borrow. **BUY LAND WHILE YOU CAN—IT WILL BE HERE WHEN GABRIEL BLOWS HIS HORN,** and you can say that of no other investment.

(a) 340 acres, well improved, nice home, \$125 per acre.

(b) A nice little farm of about 40 acres at the edge of town and well improved for \$250 per acre. Don't quit farming, buy it.

(c) Not much more than a stone's throw from the city we offer a high class farm, rich soil, good house, barn, etc., for the price of a good farm ten miles out. You can move to this within ten days, and it is a splendid buy. Let us prove it.

**SUBURBAN PROPERTY**

The best investment for a man of small means—a few acres where you can market every dime's worth.

(a) Four acres, ideal location, new house, barn etc.

(b) Ten acres, excellent soil, rich as cream, lots of fruit, good six rooms house, large barn, in fact a young farm complete, and offered worth the money. You should hurry in and see this one.

To be sure, March 1 or sooner on all these.

**HOUSES**

For two families who want to be near each other, we offer two homes on adjoining lots. Good medium sized houses at medium price. We have a prime home in the best part of the west side, complete in every particular, sleeping porch and all—only \$6000.

See the new six room bungalow near State street at \$5500. Slate roof, open grate, oak floor—You'll like it.

## URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading  
Druggist of Covington, Ky., Who Has Made  
Special Study of Catarrh.

**Says: Inflamed Nostrils  
Invite Influenza**

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcline mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcline—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and sniff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

**Important Reminder:** Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

## The Carpet Sweeper vs. the Broom

The broom stirs up a cloud of dust—part of which is breathed by the occupants of the room, leaving the rest to settle whence it came—which means MORE work.

The Carpet Sweeper picks up all dust and dirt and deposits them inside the sweeper. This method REDUCES work.

Pushing a broom is drudgery.

Pushing a Carpet Sweeper, healthy exercise.

Its cheaper, too. One good Carpet Sweeper will last several times longer than the brooms that might be purchased with an equal sum.

Hasn't had a sign of trouble  
now for over 9 months.

"A year ago I had asthma so bad  
my friends thought I would never get  
over it. I had doctored for a long  
time without results. I had not been  
in bed for 3 weeks, could not even sit  
up straight in a chair. Then I heard  
of Milks Emulsion and started using  
it. It was only two days later that  
I could go to bed and sleep soundly.  
After taking eight bottles (\$4 worth)  
I found myself completely cured. It  
is over 9 months now since I quit  
taking Milks Emulsion, and I haven't  
had a symptom of asthma since."  
Geo. W. Baker, R. F. D. 1, Latrobe, Pa.

Why shouldn't Milks Emulsion help  
you? It has worked wonders for  
others. It costs nothing to try.  
Milks Emulsion is a pleasant, nutri-  
tious food and a corrective medi-  
cine. It restores healthy, natural  
bowel action, doing away with all  
need of pills and purgatives. It  
promotes appetite and quickly puts  
the digestive organs in shape to assim-  
ilate food. As a builder of flesh and  
strength, Milks Emulsion is strongly  
recommended to those whose sickness  
has weakened, and is a powerful aid  
in resisting and repairing the effects  
of wasting diseases. Chronic stom-

Dr. Edwards' Olive Tablets Get  
at the Cause and Remove It

Dr. Edwards' Olive Tablets, the sub-  
stitute for calomel, act gently on the  
bowels and positively do the work.  
People afflicted with bad breath and  
quick relief through Dr. Edwards' Olive  
Tablets. The pleasant, sugar-coated  
tablets are taken for bad breath by  
all who know them.  
Dr. Edwards' Olive Tablets act gen-  
tly but firmly on the bowels and liver,  
stimulating them to natural action,  
clearing the blood and gently purifying  
the entire system. They do that which  
dangerous calomel does without any  
of the bad after effects.  
All the benefits of nascent, sickening,  
gripping cathartics are derived from  
Dr. Edwards' Olive Tablets without  
gripping, pain or any disagreeable effects.  
Dr. F. J. Edwards discovered the  
formula after 30 years of prac-  
tice among patients afflicted with  
bowel and liver complaint, with the  
attendant bad breath.  
Olive Tablets are purely a vegetable  
compound mixed with olive oil  
and given them by their oil  
Take one or two over night  
and note the effect.

**ESCAPED AN  
OPERATION**

By Taking Lydia E. Pink-  
ham's Vegetable Com-  
pound. Many Such Cases.

Cairo, Ill.—"Sometime ago I got  
so bad with female trouble that I  
thought I would  
have to be oper-  
ated on. I had a  
bad displacement.  
My right side  
would pain me and  
I was so nervous  
I could not hold a  
glass of water.  
Many times I  
would have to  
stop my work and  
sit down or I  
would fall on the  
floor in a faint. I consulted several  
doctors and every one told me the  
same but I kept fighting to keep from  
having the operation. I had read so  
many times of Lydia E. Pinkham's  
Vegetable Compound and it helped  
my sister so I began taking it. I  
have never felt better than I have  
since then and I like the way it is  
able to do all my work. The Veget-  
able Compound is certainly one grand  
medicine."—Mrs. J. R. MATTHEWS,  
3311 Sycamore Street, Cairo, Ill.

Of course there are many serious  
cases that only a surgical operation  
will relieve. We freely acknowledge  
this, but the above letter, and many  
others like it, amply prove that many  
operations are recommended when  
medicine in many cases is all that  
needed.

## Kornfalfa Balanced Rations

The man who knows doesn't feed straight grains to his live-  
stock any more. He buys a balanced ration. You must have  
variety in your feed, but the right variety. You can't be expect-  
ed to know what makes the best variety for different animals.  
You haven't time to study and make big feeding tests. THE  
KORNFALFA FEED MILLING COMPANY does know  
what's the best variety for different animals. It is their busi-  
ness to know. They have proven to us that they have this  
knowledge and that this knowledge is in every sack of KORNFALFA  
balanced rations you buy.

What you want and need for success in feeding is honesty  
and quality plus knowledge inside the bag, and you get it in  
these KORNFALFA FEEDS. There is a KORNFALFA BAL-  
ANCED RATION for every animal on your farm. You will be  
amazed at the results you get.

**What Do We Mean by Balanced Rations?**  
Simply that the feed fits the needs of your animal. Just enough sustaining food  
—just enough grow stuff—just enough energy and heat food—JUST ENOUGH.  
If there is too much of any one there's a waste of that—if not enough there's a  
waste of all the others. There's a right way for everything. If you adopt the  
right way you make a success. There's no excuse for your not making a success  
of feeding, if you read this. Begin feeding KORNFALFA BALANCED RA-  
TIONS right now.

**What Do These Balanced Rations Cost?**  
Not nearly as much, when you figure what they do for you, as the things you  
have been feeding. A little more in some cases when figured by the hundred  
pounds. But that's not a fair way to figure. Ground corn cobs cost less than  
corn chops. Are corn cobs better for you on that account? It's results that  
count. KORNFALFA BALANCED RATIONS are Feeds That Show Results.

## A BARGAIN IN PAINT

We have about thirty gallons of  
discontinued colors of the famous

**Horse Shoe Paint**

which we will sell at

**Less Than Wholesale Cost**

During the war, at government request, paint manufacturers  
discontinued a number of colors. They had been making from  
30 to 60 shades of each fundamental color—which was PURE  
EXTRAVAGANCE and only served to confuse buyers.  
With the conclusion of the war it was decided not to resume  
their manufacture. We chance to have about 30 gallons of  
these discontinued colors in stock. Of some there is enough to  
paint a whole house—of others a barn, garage or other small  
building. Both inside and outside colors are included.  
If you need any paint whatsoever, don't overlook this offering.  
The price will surely interest you.

## MORE MILLS NEEDED TO MAKE PRINT

Big Foreign Demand Helps Make  
Shortage for Newspapers in the  
United States.

Chicago, Jan. 30.—More mills  
are necessary to relieve the pres-  
ent world shortage of news print  
paper and the mills cannot be  
built in less than two years. W. P.  
Hinton of Winnipeg, vice presi-  
dent and general manager of the  
Grand Trunk Pacific railway, said  
here today.

There is no lack of pulp wood  
in either Canada or the United  
States at present, Mr. Hinton said,  
but added:

"The demand from Europe is  
tremendous and prices are unpre-  
cedented. Print paper laid down  
on the Atlantic seaboard for ship-  
ment abroad now sells at \$160 a  
ton.

"Manufacturers can hardly be  
blamed for taking advantage of  
the best market."

### Better Bread means Better Health

The introduction of Federal  
System of Baking has been a  
virtual health crusade in this  
city. We are making a  
more wholesome loaf of  
bread and purer pastries  
than was possible to produce  
under the old way of baking.  
We are convinced that the  
citizens of Jacksonville realize  
and appreciate our efforts  
along these lines. The lib-

Musterole is recommended by many  
doctors and nurses. Millions of jars are  
used annually for bronchitis, croup, stiff  
neck, asthma, neuralgia, pleurisy, rheu-  
matism, lumbago, pains and aches of the  
back or joints, sprains, sore muscles,  
bruises, chilblains, frost-bitten feet, colds

## REPORT CAPTURE OF ODESSA

VIENNA, Thursday, Jan. 29.—  
The capture of Odessa by Ukrain-  
ian forces commanded by Gen-  
eral Pawlenka is announced by  
the Ukrainian press service.

A committee of Ukrainian,  
Russian and Jewish citizens suc-  
ceeded in restoring order, the  
advises state, and in improving  
the provisioning of the city and  
the administration of its affairs.

Odessa, Russia's chief Black  
seaport, has been in control of  
the anti-Bolshevik forces in  
South Russia for a considerable  
period. The Bolshevik successes  
against General Denekine, how-  
ever, and his break with General  
Petlura, the Ukrainian comman-  
der, have recently been threaten-  
ing this control and a panicky  
exodus from the city has been  
in progress for a fortnight.

The force of the soviet push  
has been exerted mainly further  
east in South Russia than the  
neighborhood of Odessa, the  
nearest approach of the red  
troops definitely reported being  
a point about 175 miles to the  
northeast, at Elizabethgrad, the  
capture of which was announced  
on Jan. 26. The Ukrainian forces  
apparently have approached Odes-  
sa from the north and northwest.

## TALKED ABOUT CHANCE FOR LOCAL INDUSTRIES

Henry Frisch, Friday Speaker at  
Rotary Club Organization  
Plans to Send Big Delegation  
to Tri-City Meet.

Henry Frisch, president of the  
Chamber of Commerce, made a  
brief talk on the possibility of  
securing manufacturing plants  
for Jacksonville Friday at the  
noon day luncheon of the Rotary  
club at the Pacific hotel. George  
F. Kable of Springfield, a real  
estate expert, was the guest of  
the club and spoke briefly.

In the earlier part of the ses-  
sion President Capps announced  
squad leaders whose business it  
is to be responsible for the  
regular attendance of members.  
A committee including A. C. Met-  
calf, Judge H. P. Samuell and C.  
F. Ehrie, made report of prepa-  
rations to attend the inter-city  
Rotary conference at Springfield,  
Tuesday, Feb. 10. Rotarians from  
over and Gatesburg will go  
thru Jacksonville early Tuesday  
morning on a special train. The  
local men have been invited to  
join them but will probably not  
go to the capital city until the  
8:10 o'clock train Tuesday morn-  
ing. It is the expectation that  
the club will be largely repre-  
sented at this conference.

**Few Pay Bonuses.**  
Mr. Frisch in talking about  
location of manufacturing said  
that from investigation he had  
found that larger cities had done  
away with the practice of paying  
bonuses to factories. With the  
smaller cities this custom still  
prevails to some extent. The  
smaller cities naturally have a  
greater anxiety to secure indus-  
trial plants than is true of the  
larger centers.

The speaker said that one  
argument used against Jackso-  
ville in the past has been the  
lack of water but now that this  
handicap is done away with. He  
said another trouble with de-  
veloping manufacturing plants is  
the scarcity of labor. But com-  
pared with some other cities of  
like population, Jacksonville has  
a much larger percentage of  
residents who are not compelled  
to work for a living, or if em-  
ployed prefer some line of work  
other than that provided in  
manufacturing plants.

**Local Industries.**  
Mr. Frisch then quoted some  
figures showing that there are  
800 employees in the producing  
plants of Jacksonville and that  
the annual payroll of these in-  
stitutions runs from a million  
and a half to two millions a year.  
He told of being in another city  
not long since and of his feeling  
when taking an early morning  
train. Just before daylight had  
really come he passed many  
workers on the streets with din-  
ner buckets under their arms  
on the way to work. The  
thought came to him at that time  
that this early activity was a  
sign of pulsating life within the  
city and he hoped to see the  
day come when there will be a  
much larger bucket brigade in  
Jacksonville than is now true.  
Mr. Frisch brought out the  
thought that in Jacksonville at  
present there are greater oppor-  
tunities than even before for se-  
curing stable industries and that  
something can really be accom-  
plished thru continued united  
effort on the part of the people  
here.

## EFFORTS TO BREAK TREATY DEADLOCK ENDS IN FAILURE

(Continued from Page One.)

parent that sentiment was in an  
indecisive state. There have  
been some indications that there  
might not be undivided Democrat-  
ic support for the move, but some  
of the mild reservation Republi-  
cans and some senators of the ir-  
reconcilable group have looked  
with favor upon it.

**In Issue Two Weeks.**  
Senator Hitchcock said he did  
not know whether a majority fa-  
vored it but believed such was  
the case. Senator Lodge's state-  
ment reviewing the work of the  
bi-partisan committee said:

"For the past two weeks, nine  
senators—five Democrats and four  
Republicans—have been meeting  
to consider the question of  
changes in the reservations com-  
monly known as the Lodge resolu-  
tions. The meetings were entirely  
informal and it was understood at  
all times that they had no power  
or authority whatever to bind any  
one. Their only purpose was to  
see whether there were any  
changes which they would be will-  
ing to lay before all the other  
members of the senate for their  
consideration."

No agreement was reached.  
Tentative agreements were obtain-  
ed.

The statement then reviewed  
the change accepted in the pre-  
amble and the reservations affect-  
ing domestic questions Shantung  
appointment of league repre-  
sentatives and armaments.

These changes have already  
been published. No decision was  
reached.

## Big Money In Hogs

With the increasing growth of large cities and manufactur-  
ing towns of the United States and the foreign demand for  
pork products, hogs can be raised at a large profit for a long  
time to come. If the production should be increased 25% the  
demand would be great and hogs would be raised at a good  
profit.

To increase this profitable industry of the United States it  
will be necessary for the breeder to take special care of his  
brood stock and raise all the pigs he can and see that they  
get a good start. The feeder should keep his stock in good  
health and make them heavy before marketing.

**NATIONAL HOG POWDER** will assist you to raise more  
hogs from a given number of sows and will assist to make

## BLAZE CAUSED BY PICTURE MACHINE

Film in Machine at State School For Deaf Catches Fire — Everett Mann, Operator Burned — Pupils Extinguish Flames.

Ignition of the film of a picture machine at the State School for the Deaf at 8 o'clock Friday evening painfully burned Everett Mann, the operator, and threw a scare into the pupils.

However, because of the fire at the school, the pupils who were assembled in the chapel passed out in orderly manner on the fire escapes. It was not known just how the blaze started. The films used in making motion pictures are very inflammable. In some manner the film ignited and in an instant the entire interior of the booth was in flames.

Everett Mann, the operator, managed to escape from the booth but not until he received painful burns. He was given attention by C. F. Baxter and it is not thought his injuries will prove serious, tho he will be kept from work for some time.

An alarm was sent to the fire department which made a prompt response. However, the boy students of the school got out the institution hose and extinguished the blaze inside the booth before the department arrived.

### Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about \$2.

Pine is used in nearly all prescriptions, and remedies for coughs. The reason is that pine contains several elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pine in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and tastes very pleasant.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pine and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pine is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs. Beware of substitutes. Ask your druggist for "2½ ounces of Pine" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pine Co., Ft. Wayne, Ind.

# PREVENTION IS BEST CURE FOR INFLUENZA SAY PUBLIC AUTHORITIES

Every Possible Effort is Being Made in Affected Localities to Stop Further Spread of Disease.

OUNCE OF PREVENTION WORTH POUND OF CURE

Persons Who Catch Colds Easily and Who Are in Run-Down Condition in Greatest Danger.

Influenza continues to spread; the disease is now prevalent in many sections of the country. It has baffled the medical skill of an unusual extent, and although it has been held in check in most localities it has gotten beyond control in others. The germ has eluded bacteriologists, and medical men now agree that the best cure is prevention.

The surest prevention is to build up the bodily powers of resistance and to get the system into the best physical condition possible. It is now universally agreed that it is possible to perfect the powers of resistance of the human system so that it can throw off almost any infection, not excepting influenza.

It has been observed that persons who are weak and run-down are more susceptible to the disease than persons who are in robust health, and if you are in a generally run-down condition and below normal in weight this warning should be heeded promptly. If you are in this condition nothing

on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science. As a reconstructive tonic and system builder it is without an equal and contains the very elements needed by the system to give you fighting strength to ward off disease germs. This is a statement of fact and is supported by the recognized authorities and reference works including the U. S. Dispensatory, the Encyclopedia Britannica and also by standard text books used in the schools of medicine. This statement is further proven by the fact that millions of persons who have actually taken Tanlac have testified to its extraordinary merit as a medicine and by the fact Tanlac is today having the largest sale of any tonic on the American market.

Tanlac is also an ideal strengthening tonic for persons who are suffering from the after-effects of colds, influenza, ordinary Grippe, and bronchial troubles, and hundreds of thousands are using it daily with most gratifying results. In connection with the Tanlac treatment it is very important to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are enclosed with every bottle of Tanlac.

Tanlac is sold in Jacksonville by Coover & Shreve; in Mercedosa by Mr. R. B. Field; in Murrayville by M. E. Gilbert; in Waverly by Wyle Drug Co.; in Woodstock by The Hoy Pharmacy; in Chablin by John Onken & Bros.; and in Alexandria by Frank J. Kaiser.—Adv.

## Perfect Health is Yours If the Blood is Kept Pure

Almost Every Human Ailment is Directly Traceable to Impurities in the Blood

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vitality.

By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an

opening. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Everyone needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle today, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 46 Swift Laboratory, Atlanta, Ga.

*"She's a picture anyway!"*

WITH topboots, sombrero and everything—

Startling Society with a wild west garden party, which ends like a Villa raid—

Picture all this and still you have only an inkling of the hundred and one manifestations of mischief which end with Mabel's departure for Arizona again, with several perfectly proper gentlemen chaperones.

The funniest farce ever filmed, played by the cleverest comedienne ever screened!

# Farmers!

Since last April 50,000 farmers of Illinois have joined the Illinois Agricultural Association and their county Farm Bureau. It is a wonderful record of farmers organizing. Members are coming in at the rate of 400 a day and 2,000 every week. The 35 counties that have had membership campaigns have an average membership of 1,300. Six counties have a membership of over 2,000.

Farmers are organizing and sticking together. At the rate we are going it will only be a few months until we have an organization of 100,000 farmersn Illinois. In two days the farmers of little Kendall County, with only nine townships, signed up 961 farmers to the F. B. and I. A. A. Four county memberships are going on every month. Ninety-five per cent of the farmers are joining these organizations.

Now it is up to the farmers of Morgan County. We are going to have the chance to show if we are earnest in trying to solve the problems we have been talking about.

Remember the Campaign Starts  
Next Monday.  
BE READY TO JOIN

# CORN TAKES AN UPWARD TURN

(By Associated Press.)  
CHICAGO, Jan. 30.—Corn  
averaged higher in price today  
owing mainly to the lack of an  
adequate supply here and to  
month end demand from shorts  
who found difficulty filling Jan.  
contracts. The close was unset-  
tled ranging from 3/4 c net decline  
to an advance of 2c, with May  
\$1.35 1/2 to \$1.35 3/4 and July  
\$1.32 1/2 to \$1.32 3/4. Oats finish-  
ed unchanged to 1/4 c higher and  
provisions unchanged to 13  
cents up.

## FANS WILL HAVE SPECIAL TRAIN

Burlington Will Run Special for Accommodation of Fans to See Baldwin-Hanlon Bout—Tickets are Going Fast.

Arrangements have been completed for the special train to carry boxing fans to Beardstown next Monday evening, February 2, to witness the ten-round bout between Al Baldwin of this city and Jimmy Hanlon of Denver, Colo.

Word from Beardstown says that there is a big demand for seats and indications are that the entire house will be sold out before the night of the bout.

Seats are on sale here at C. M. Sharpe's cigar stand and the Pacific hotel. All local fans should secure their seats at once as it is desired that the Jacksonville crowd have seats together if possible.

There is a big dance in Beardstown next Monday evening, the night of the bout. It is probable some of Jacksonville's dancing people will take advantage of the special train and go over and spend the evening dancing.

NOTICE OF PROPOSED CHANGE IN RATES

To the Patrons of the Jacksonville Railway & Light Company:

The Jacksonville Railway & Light Company hereby gives notice to the public that it has filed with the Public Utilities Commission of Illinois, a schedule which will change the rates for street car service in the City of Jacksonville and Village of South Jacksonville, County of Morgan, and that such a change in rates involves an increase in street car fares. A copy of the proposed schedule may be inspected by any interested party at the office of the Company in the City of Jacksonville. All parties interested in this proceeding may obtain information as to the time and place of hearing upon this matter by addressing the Secretary of the Public Utilities Commission at Springfield, Illinois.

General Supt.

## ZAHN'S FORCES

ARRIVE AT LAST  
The last two contingents of eight persons each bringing cars for Howard Zahn have safely arrived. They report snow two feet deep on the level in Michigan. Mr. Zahn says he saw at least five hundred new cars enroute from the various Michigan factories to the plants of their respective dealers and a whole lot side tracked in barnyards, waiting for better weather and roads.

The first contingent say they made 350 miles in twelve hours, starting from Gary, Indiana, their last stop. A part of the time they were on hard roads and said they could travel at any speed there. Some of the time it took four horses to pull them through the drifts but they persevered and reached home all right.

The first eight to come in were: G. W. Chrisman, William Newman, William McEbers, Amos White, Robert Seymour, Thomas Stice, Lee Antrobus and James Scott.

The others were: Mr. Zahn, Gabe Chrisman, James Moore, Earl Wolfe, Louis Cannon, Grover Wilhite and G. C. Davenport.

## NOTICE TO JURORS

The Jurors summoned to appear for Jury service in the Circuit Court Monday, February 2nd, 1920 are hereby notified not to appear until Monday, February 9th, 1920.

C. W. BOSTON,  
Circuit Clerk.

## HELD INQUEST.

Coroner Rose empaneled a jury Friday and held an inquest into the death of Mrs. John Schlosser, who died suddenly at the Pacific hotel Thursday evening.

The jury was composed of William Batz, foreman; E. J. Henderson, L. E. Hall, Thomas Dods-worth, B. B. Ridgeway and Lee Stainforth, clerk.

The testimony of Dr. Edward Bowe and Mrs. Alice Swank was heard. It developed no facts in addition to those already published in the Journal. The jury returned a verdict in accordance with the facts as given.

Hear Bonnett, World's Greatest Organist, Woman's College, February 6. Single admission \$1.00—Season tickets \$2.00.

TO HOLD ALL DAY MEETING.  
The Ladies' Aid Society of State street church will have an all day meeting in the church parlor Thursday of this week.

## RUSHVILLE LOSES TO JACKSONVILLE

Visitors Are Overwhelmed by Score of 48 to 11—Locals Keep Up Speed and Toss Baskets From all Parts of the Floor.

Rushville lost to Jacksonville high at David Prince gymnasium Friday night by a score of 48 to 11.

Jacksonville kept up the speed displayed in the game with War-ry on Thursday night and gave a great exhibition of passing and floor work. Lucas, Woods and Hunter shot baskets with deadly accuracy from all parts of the floor.

The Jacksonville team has improve more in the last two weeks than any squad that ever represented the school. For a time the team did not play consistent basketball. However, the right combination seems to have been found now and the team looks good enough to win the district tournament if it can keep going at the present speed.

Seldom is faster and more brilliant work on both offense and defense seen on a basketball floor than that displayed by Arthur Green last night. He was all over the floor and repeatedly took the ball away from the Rushville men. In addition he was as slippery as an eel and it took almost the entire Rushville five to stop him and then they often failed.

Hunter also played a sterling game at center and Woods was a good running mate for Lucas. The latter was at his best and shot baskets from all over the floor. His eye was good and the baskets he missed were by fractions of inches. Ransdell played his usual brilliant game at guard and the Rushville forwards did not have much luck trying to get by him.

One of the features of the game was a basket made by one of the Rushville guards for Jacksonville. He was jumping for the ball with Hunter and tipped the ball into the Jacksonville basket, thus presenting the locals with two points.

The Rushville men did some good passing and floor work. However, Ransdell and Green guarded so well that most of their shots were from long distances and they did not seem to have much of an eye for the hoop. The score:

Jacksonville	F.G.	F.T.	T's.
Lucas, f	11	0	22
Woods, f	7	0	14
Johnson, f	0	0	0
Hunter, c	6	0	12

## SUNDAY SCHOOLS GET READY FOR BASKETBALL

Will Have Ineligible List of Star Players in College and High School—First Game Will be Played Next Thursday.

Managers of the basketball teams of the various Sunday schools of the city met with Secretary Findley at the Y. M. C. A. Thursday evening and completed plans for the Sunday school basketball league.

Several years ago when the Sunday schools organized a league it soon got to a place where the teams looked more like Illinois College or High School teams as the personnel was made up mainly of these players. This soon killed the interest in the game.

In order to avoid this phase the managers voted to request Coach Harmon of Illinois College and Coach of the high school to select twelve men from their respective schools whom they consider their best players. These players will be reported to the officers of the Sunday school league and will be placed on the ineligible list.

The schools are asked to select team captains Sunday and instruct them to report at the Y. M. C. A. Tuesday evening at 7:30 o'clock when the schedule will be made. The first games will be played next Thursday night. Players between the ages of 14 and 21 years, except those named by the coaches are eligible to play.

## ILLINOIS COLLEGE WILL PLAY LINCOLN

Will Meet Lincoln College Team at David Prince Tonight—Current Rivalry Between Second and Franklin Indexes.

Illinois college will have the Lincoln college team for an opponent at David Prince gymnasium tonight.

A curtain raiser will be played between the second team and Franklin Independents. This game will start promptly at 8 o'clock. The varsity will follow immediately.

The curtain raiser should be fully as exciting as the main game. Franklin has one of the fastest teams in this part of the state. They have won all of their games this year. In Teaney they have one of the classiest forwards in the business and the other men are also fast. The seconds will have their work cut out for them.

Coach Harmon expects his seconds and varsity to both win. The varsity, however, will have no wallday with Lincoln. The visitors have a center who makes Ed Tomlinson look like a dwarf and he is fast too.

Coach Harmon announced the following lineups to start the games tonight.

Varsity—Fraser, Cully, forwards; Tomlinson, center; Jones, Andrew, guards.

Seconds—Allen, Antrobus, forwards; Mellon, center; Davis, Mutch, guards.

Now is the time to enroll in Woman's College in any of the departments. Special courses in Music, Art and Expression. Classes in swimming and Physical Education.

## PERMIT FLYERS TO RETURN TO U. S. TODAY

Brownsville, Texas, Jan. 30.—Lawrence E. F. Davis and C. E. Grimes, United States army aviators who made a forced landing in Mexico opposite Zapata county, Texas, Wednesday, probably will be back on American soil tomorrow. The Mexican government today gave sanction to plans for their return and for sending the aviators a supply of oil and gasoline. The exhaustion of which caused the landing miles within Mexican territory. The supplies will be sent by automobile from Zapata, Texas and it is expressed they will go forward at once.

## MUNICIPAL LEAGUE IN ANNUAL MEET

Many Cities Represented at Conference Held in Springfield—Subjects of Importance to Municipalities Discussed.

The sixth annual convention of the Illinois Municipal league and the Home Rule Municipal league was in session in Springfield, Thursday and Friday. Mayor E. E. Crabtree and former Mayor H. J. Rodgers were in attendance. The general sessions were held in the senate chamber at the state house and a dinner was given at the Leland Thursday night, followed by addresses.

The leagues have as members not only city officials but private citizens as well. From year to year the interest has grown and the programs as given Thursday and Friday included addresses by men who have made a deep study of state and municipal affairs. At the opening session the address was given by Mayor Charles Baumann of Springfield and then came the annual address of the President, Mayor H. P. Pearsons of Evanston.

The report of the legislative committee was given by H. J. Rodgers of this city. Two notable addresses were given at the Thursday night banquet. John A. Fairlie of the university of Illinois discussed "Home Rule and the Constitution" after which Prof. Charles E. Merriam of the university of Chicago discussed some of Chicago's problems in relation to its own government and the state.

At the Friday morning session Lloyd Morey of the university of Illinois discussed municipal accounting and a very informing address was given by Prof. Fraund of Northwestern university. The organization now is well established, represented in all parts of the state, and it is the expectation that during the year the membership will be greatly increased.

Mayor Crabtree of this city was named as chairman of the membership committee and later on a somewhat intensive campaign will be waged in order to familiarize cities and the public with the work of the league.

## IS GREAT HOSPITAL

Many Jacksonville people will be interested in knowing something about the work of the Los Angeles (Calif.) county hospital, which is one of the largest institutions of its kind and comparatively new. Miss Mary Billing Taylor, a daughter of Capt. F. C. Taylor, of this city, has for several years been a secretary on the staff of the hospital. It is the third largest institution of its kind in the U. S. and its equipment includes 1,283 beds. More than 1,000 patients are cared for at all times. As it is located in a community of nearly a million people, it goes without saying that there are many sick poor who need the care given.

The regular staff at the hospital includes 30 internes, 200 employees in the nursing department and 200 miscellaneous officers and employees.
